Keywords.....	7
Thanks.....	9
Summary.....	13
Foreword.....	15
Overview.....	27
Part I	
Concept and analytical approaches to transition. Literature review.....	43
Chapter 1. Energy transition: the concept.....	47
Section 1. Use of the concept.....	48
Section 2. Energy transition, ecological transition and sustainable development et développement durable: concepts to be clarified...	53
Section 3. Weak transition versus strong transition forte.....	61
Chapter 2. Energy transition : analytical approaches.....	63
Section 1. Institutional approach.....	63
Section 2. The technological approach.....	64
Section 3. The sociological approach.....	65
Section 4. The regulationist approach.....	67
Section 5. The managerial approach.....	68
Section 6. The multidisciplinary approach to energy transition.....	69
1. Ecological modernization.....	69
2. “Social practice theory”.....	70
3. Political ecology.....	70
4. “Sustainability transitions”.....	70
Part II	
The challenges of the energy transition in the Republic of Congo.....	73
Chapter 1. Assessment of the Congo energy system.....	77
Section 1. Congo energy mix.....	77
Section 2. Energy system specificities.....	80

1. Energy production and energy sources.....	81
1.1. Production.....	81
1.1.1. Hydroelectricity.....	81
a. The Imboulou power plant.....	82
b. The Liouesso power plant.....	82
c. The Djoué power station.....	82
d. The Moukoulou power plant.....	82
1.1.2. Thermal diesel.....	82
1.1.3. The Djéno gas plant.....	83
1.1.4. Solar energy.....	83
1.1.5. Biomass energy.....	83
1.2. Energy resources.....	85
2. Overall energy system indicators.....	85
2.1. The primary energy intensity of GDP.....	85
2.2. Energy independance.....	88
2.3. Electricity pricing.....	89
3. The legal and institutional framework.....	92
3.1. The legal framework.....	93
3.2. The institutional framework.....	94
3.2.1. The role of the state.....	95
3.2.2. The role of Énergie Électrique du Congo (E <sup>2</sup> C SA).....	95
Section 3. Rural electrification .....	96
Section 4. Environmental Obligations.....	97
Chapter 2. Energy transition environment.....	99
Section 1. Natural environment.....	99
1. Physical environment.....	99
2. The climate.....	100
3. Plant formations.....	101
4. The hydrographic network.....	102
5. The population.....	102
Section 2. Climate change and its impact.....	103

Section 3. The economy.....	107
1. Structural blockages .....	107
2. Diversification: a way of broadening the productive base.....	108
2.1. Diversification: permissives conditions.....	110
2.1.1. Reducing uncertainty.....	110
2.1.2. Attractiveness: investment opportunities.....	112
2.1.3. Return on investment : profitability.....	115
2.2. Diversification: the importance of value chains.....	116
2.3. Integrating the Congo into value chains.....	118
3. Congo’s participation in the CVMs .....	119
4. Assets ans constraints.....	120
4.1. Assets.....	121
4.2. The constraints.....	122
Chapter 3. The transition to clean energy.....	125
Section 1. Energy demand in the Congo basin.....	126
Section 2. The energy mix in the Congo basin.....	128
Section 3. Renewable energy potential: the case of hydroelectricity.....	132
Section 4. The shortcomings of current interventions: focusing the fight against CO <sub>2</sub> emissions on deforestation.....	132
Conclusion. Which kind of energy for the Congo ?.....	145
Bibliography.....	151
1. Primary sources.....	151
2. Online documentary sources.....	176
2.1. Articles.....	176
2.2. Web sites and Databases.....	176
List of tables.....	179
List of figures.....	179
List of annexes.....	181
Annexe 1.    Directory of hydroelectric site in Congo.....	181
Annexe 2.    Congo. Energy offers by source: 1990-2010.....	183
Annexe 3.    Current electricity network in Republic of Congo.....	184
Annexe 4.    Potential gas reserves.....	185
Annexe 5.    Congo. Final energy consumption by source : 1990-2020.....	186

Annexe 6.	Congo. Electricity production by source : 1990-2020.....	187
Annexe 7.	Congo. Electric energy consumption by inhabitant .....	188
Annexe 8.	Electricity pricing.....	189
Annexe 8.1.	<i>Low voltage price</i> .....	190
Annexe 8.2.	<i>Single price Public lighting</i> .....	190
Annexe 8.3.	<i>Price for medium voltage and high voltage</i> .....	190
Annexe 9.	Population evolution: 2020-2050.....	191
Annexe 10.	Access to electricity in sub-Saharan Africa: 2001-2021.....	192
Contents.....		193
